

How to Take the Right Action with the 4D's day-in-day-out.

**"Life... It tends to respond to our outlook, to shape itself to meet our expectations."
~ Richard M. DeVos**

The simple truth is, people often FAIL, simply because they don't EXPECT to succeed. Because they have not set clear expectations, they have only a fuzzy picture of what they want to see happen.

Lacking clear details and solid targets, they spend their precious time going in multiple directions; none of which leads to living what they value most.

As explained on the recent teleseminar, by turning a wish into a dream... a dream into a GOAL... a goal into a PLAN... THEN taking some ACTION (however small) to move towards your dream, you EARN the right to EXPECT rather than just wish and wait.

What Do You Have The Right To Expect?

The question you need to answer is which part of this PROCESS is standing between you and the life you want? Do you just dream, and then wish on a star? Or, do you bring your dreams into the light of day where you can see them, touch them and give them the RESPECT they so richly deserve?

What Do You EXPECT This Year?

Rate Your Power to EXECUTE %

To ACHIEVE your goals, you must BELIEVE you can.

As I say in my workshops and coaching, success is the direct result of doing your 4 R's day-in-day-out: **Taking the RIGHT actions, the RIGHT way, at the RIGHT time for the RIGHT reasons.**

Understand this and you can take on anything with confidence. Clearly, if you don't BELIEVE you can attain your goals, you won't. However, remain confident that you can succeed at whatever you do, as long as you take the RIGHT ACTIONS, and you will ultimately prevail.

Simply put, when you learn to EXPECT success, you will succeed.
